

In Kutná Hora, 31 March, 2016

Dear Business Partners,

Let me inform you this way of several latest news and changes in ARBOR. At the beginning of the last week the company introduced new branding together with a new logo highlighting its independence. We are entering the next phase of our existence, in which we want to focus both on the existing range of services and solutions and on entering the new modern sectors.

ARBOR, with an experienced team of staff, will continue to provide comprehensive services and consultancy in the field of telecommunication infrastructure construction, where it is one of the leading companies in the industry. We are working hard to extend our business to other important business activities, both in the Czech Republic and Slovakia, as well as in other countries of the European Union. In addition to cooperation on data and logistics centres, commercial and industrial cooling projects, ICT solutions for smart cities so cold Internet of Things (IoT).

I believe that, within existing and planned projects, we will continue with finding ways of mutual cooperation, using services and know-how. If you have any questions, do not hesitate to contact me or your current partner from company management.

In this count, I would like to draw your attention to the need to direct all communications only to ARBOR's contacts, so then www.arbor.as.

In case of e-mail communication, the address format is name.surname@arbor.as.

I very much appreciate our cooperation so far and I believe that the current changes will help us to successfully achieve new goals and successes.

Yours Faithfully,

Ing. Jan Štěpnička

CEO
